

BUILDING YOUR BROADER IMPACT AROUND CLIMATE CHANGE AND ENERGY RESEARCH

MARCH 21, 2024
COOK CAMPUS CENTER
9:30 AM - 2 PM

Do you want to move beyond the basics of a graduate student or developing a website for your next National Science Foundation (NSF) proposal's Broader Impacts plan?

Would you like to explore engaging ways of developing a Broader Impacts project that benefit society?

We invite Rutgers scientists in all career stages to participate in this workshop. Our goal is to help you create, implement, and evaluate your Broader Impact activities. Although this workshop is through the lens of climate change-related research, the skills you will learn are applicable across a range of subjects.

Agenda at a Glance

- 9:00 am Registration
- 9:30 am Broader Impacts Foundations
Exploring the ARIS Toolkit
- 12:00 pm Free Networking Lunch with
potential BI partners
- 1:30 pm Building effective partnerships
- 2:00 pm Wrap up
